

# OC-L

## SCHÜTZ OC-L open-head drum

Most advanced plastics engineering by SCHÜTZ:

### New cylindrical plastic open-head drum.

- Economic and ecological alternative to steel drums
- Considerably less tara weight
- Best results for emptying of residues
- Resistant to corrosion and denting
- Better cleanliness
- Advanced multi-trip capability
- Less consumption of energy for recycling

Please do not hesitate to contact us regarding any technical concerns or questions.
